*This column for the \$25,000 or less income category includes 15,945 households with zero or negative income that paid property taxes in 2009. **The subtotal of all households in this income range that reported paying 10% or more of income in property taxes in 2009 includes (a) 103,075 households that paid between 10% and 19.99% of income in property taxes; and (b) 81,348 additional households that paid \$10,000 or more in property taxes but who, because of top coding of the ACS question on real estate taxes, can not be apportioned between the "10% to 19.99% of income" property tax category and the "20% or more of income" property tax category.
